Statistics Requirement

All business and society majors must complete at least three credits in an approved statistics course. Students normally complete the approved statistics course as part of their stream requirement. ■ **Certificate in Geographic Information Systems and Remote Sensing**

Effective session of change: Fall 2014

The proposed changes are to: make AP/SC/GEOG 2340 3.00 (Geoinformatics: Introduction) a required course for the certificate (currently it is part of the optional list of courses); remove the optional courses AP/GEOG 3140 3.00, AP/GEOG 4240 3.00, LE/EATS 4220 3.00, LE/EATS 4230 3.00 from the certificate program; and make an editorial correction to capture the course number change of AP/SC/GEOG 3180 3.00 to AP/SC/GEOG 3340 3.00. These changes do not affect the pedagogical quality of the certificate or the Learning Expectations.

AP/SC/GEOG 2340 3.00 is an Introduction to Statistics, GPS, GIS and Remote Sensing and has recently been made a required course for Honours Geography Majors. The course is a basic introduction to all upper level courses needed for the certificate and as such, it should be a required course. The number of students taking one of the optional courses (e.g. EATS 4220 and EAT 4230) instead of GEOG 2340 has been minimal. Moreover, and due to retirement, the Geography courses (GEOG 3140 and GEOG 4240) may not be offered on a regular basis anymore.

- 3) Align a 2000-level non-core course (AP/HUMA 2680 9.0, Early Times: Literature and the Imagination of the Child) to the new General Education legislation.

- **Classical Studies**

Effective session of change: Summer 2014

The proposed changes are to:

- 1). Add the word “relevant” to the sentence preceding the extended list of program courses. “Relevant” is being added to clarify to students that the courses must be related to the field of

Classical Studies and not simply any courses. The sentence within the current calendar copy is too vague.

2). Add the following two courses to the list of Classical Studies courses approved for degree credit - GL/HUMA 2922 6.00 (Intermediate Latin), and AP/HUMA 3107 6.00 (Roman Republican Literature). GL/HUMA 2922 6.00 gives students another option to take an intermediate Latin course at York. AP/HUMA 3107 6.00 supplements the upper-level offerings in Roman culture and literature for the program and adds a course to cover an area not yet covered in more depth.

Effective session of change: Summer 2014

The proposed changes are to:

- 1). Remove the sentence "With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in classics" from appearing before the extended list of Classics courses. The sentence is too vague and potentially misleading to students.

2). Add GL/HUMA 2922 6.00 (Intermediate Latin) to the list of Classics courses approved for degree credit. GL/HUMA 2922 6.00 gives students another option (in addition to AP/LA 2000 6.00) to take an intermediate Latin course at York.

Effective session of change: Fall 2014

The proposed changes are to:

- 1). Add the new course, AP/EN 3592 6.00 Literary London, to the categories list of program courses under: 3000-level, Category C: Literatures in and Across History, British. This study abroad course will build on knowledge about genres and national literatures gained in introductory courses. It will allow students to consider more specific questions about setting, spatial representation, gender, and historical context in a trans-historical selection of literary works.

- 2). Make an editorial revision to reflect the change in course number of AP/EN 3551 3.00 to AP/EN 3553 3.00. The course is listed in the extended list of courses under: under: 3000-level, Category C: Literatures in and Across History, British. This change is editorial and does not present any significant changes to the curriculum or pedagogy of the program.

■ **German Studies**

Effective session of change: Fall 2014

The proposed change is to remove AP/GER 2790 9.00 (Germany Through the Ages: Culture and Society) from the list of core courses for the program. In response to the changes to the LA&PS General Education Guiding Principles and Model, AP/GER 2790 9.00 will be moved to a 1000-level course and will only count towards general education credit. No changes are being made to the number of over all major credits required for each degree type; the six credits are being maintained within the core such that students may take another course either with the AP/GER prefix or one from the list of approved German Studies courses (specified for each degree type, as below).

■ **History**

Effective session of change: Fall 2014

The proposed change is to add a list of 4000-level History courses which are approved seminar courses that may be used to fulfil the program requirement. This is an editorial revision to the calendar copy which does not make any significant changes to the curriculum.

The calendar copy for History currently states:

“The department offers two types of 4000-level courses: Honours seminars and colloquia. Seminars normally enrol about 18 students and have a substantial research component. Colloquia normally enrol 30 students. Honours majors must take at least one 4000-level seminar (six credits). Specialized Honours degree students must take two 4000-level seminars (12 credits)”.

There is currently no information in the calendar for students to identify which 4000-level courses are seminars and which are colloquia. The addition of the list rectifies this omission and provides better transparency for students regarding the degree requirements for their program.

Department of Humanities**

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students may count a maximum of six humanities credits at the 1000 level for credit towards the major/minor in humanities.

Enrolment in 3000-level humanities courses requires the fulfillment of one of the following requirements: a previous humanities course or permission of the instructor. 3000-level humanities courses with these prerequisite requirements will be clearly identified in the Humanities Supplemental Calendar. Failure to satisfy the listed prerequisite requirement will result in being denied access to the course and/or de-enrolment from the course.

Students wishing to major or minor in humanities must contact the director of undergraduate studies, 203 Vanier College, in order to discuss their proposed program of study and arrange for a program adviser with congruent academic interests.

The following interdisciplinary Honours programs are associated with the Department of Humanities: children's studies, classical studies, classics, creative writing, East Asian studies, European studies, Hellenic studies, Latin American and Caribbean studies, religious studies and science and technology studies. Each of these programs are designed to permit students to follow a flexible curriculum of studies with various departments and other area studies programs, along with interdisciplinary courses in the division. ■ **Religious Studies**

Effective session of change: Fall 2014

The proposed changes are to:

3. Remove the following requirement for the Honours Minor only: “at least one course from each of categories 1-5 of the religious studies courses”. Honours Major students are required to take at least one course from five categories of courses. The same requirement is placed on the Honours Minor students and with the same rationale (to achieve a breadth of experience in a variety of religious traditions and methodologies) but Minor students are required to take only 30 credits. Achieving the same level of breadth as a program that requires 48 credits is too difficult for the Honours Minor students to acquire. It is still desired that the Honours Minor students have breadth in their program, but this can be achieved through the former (pre-2012/2013) requirements—namely, the requirement to take at least one course in three different religious traditions.
4. Make editorial corrections to typos in seven course listings.
5. Add several existing courses to the list of program courses. These changes do not affect the pedagogical quality of the program or the Learning Expectations.

Honours Double Major Interdisciplinary

(Linked) BA

The South Asian Studies program is housed in the Department of Social Science and is an Honours Double Major leading to a BA in the Faculty of Liberal Arts and Professional Studies. South Asian studies majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health.

Students enrolled in this program are required to take 36 credits in their co-major according to the requirements and regulations specified by each department or school for students in Honours Double Major interdisciplinary programs. Students are similarly required to meet general education, distribution and other degree requirements prescribed for Honours BA students by the Faculty of Liberal Arts and Professional Studies.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from approved courses in humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

This course will take a problem-based approach to a range of topics such as: the effects of race and racism, sources of religious conflict, alternate genders and sexualities, First Nations and health, international development and issues of social inequality. Students are encouraged to bring their own knowledge and experience as the first step in "thinking like an anthropologist" (i.e. rethinking the taken-for-granted). The emphasis in this course is developing skills (analytical thinking, reading, writing).

- **AP/GER ---- 6.00 Kino-Culture: German Cinema in Competition with Hollywood**

This course introduces students to German cinema and explores its interaction with Hollywood. Through the study of artistically and commercially successful films, this course traces the influence of German cinema on Hollywood films and, in turn, the response of German cinema towards the dominance of popular Hollywood cinema and the effects of globalization on film production. Our analyses will include films from the Weimar period, the Nazi Period, West and East Germany after WWII through to recent German cinema. The close study of selected films within the socio-political context of their production illuminates processes of cross-cultural influence and inspiration that have shaped cinematic culture in Europe and North America. Also, it furthers students' understanding of film as a complex text as well as a social and cultural product which mediates and contributes to discourses on national and cultural identity. In comparison to Hollywood film practices, we consider questions of genre, stardom, political and commercial censorship, "national cinema", the role of remakes and adaptations, authorship, and attitudes of and towards the audience. The course introduces students to some of the most important film artists in German film history as well as to a number of central concepts in German Cultural Studies. While introducing students to film studies
